ABOUT US

At Sheds Sheds Sheds Ltd, we don't believe in cutting corners – that's why every building we make is built from 22mm heavy-duty timber, compared to the 11mm industry standard.

Since 2004, we've been creating strong, reliable sheds, summer houses, man caves and hot tub shelters, while also offering fencing, timber and sheet materials for customers who want to take on their own projects.

We've built our reputation on quality and service, and our customers agree – with glowing 5-star Google reviews backing us all the way.

The business was founded by Darren Hughes and has grown into a true family effort. Our Worksop yard, running for 21 years, is now proudly managed by his children, Callie and Darren Jnr, while the Wrangle yard, open for the past 8 years, is overseen by their father, Darren Snr.

With two generations working side by side, we combine experience, passion, and family values to bring our customers the very best in garden buildings, fencing, and timber supplies – all built stronger than the industry standard.

I can't put into words what these guys (darren, steve, Chris and Leo) have done for me. They have bent over backwards to help make things a reality and earlier than scheduled too :) They have been so kind and professional. Even if i did give them more challenges than necessary. Highly recommended, quality products and service. Thank you so much for everything you have done and what a valentines present haha thanks again . You guys really have made my day. Take care all of you.

Had my custom building made for Leeds Xmas market. Tony's Greek Gyros Street Food Stall. Darren made it to open at front so I could serve people and get my equipment in and out. He even went out his way and delivered it on a Sunday night at 7pm when market closed ready for Monday. Can't thank him enough. 5 stars

Darren and Chris have done an excellent job with our new shed. They were so helpful, approachable, friendly, did everything in a timely manner and were very cooperative. They probably won't say the same about me and my husband, but we don't need a review 😊 If it's sheds you need, don't look any further!
